

GRAHAM MURRAY NEWS OCT 2015

Our New Look Dental Practice for our 30th Anniversary year

It is the practice's 30th Anniversary year this year ! We first opened in Daventry Road on 1/4/1985 . There are still many patients who will clearly remember that year and are still loyal to the practice to this day . Thank you to all of you . We are still in the process of updating the Practice here at Daventry Road . Lets says we are giving it its anniversary present . We are almost finished with the alterations now .The latest addition being automatic opening front doors to welcome you in ! We intend to enjoy our anniversary year

Wow our third Practice Wedding this year !

Emma , John Addy's nurse and also our Infection Control Supervisor ,whom I am sure most of you have met married her Fiancée Dave Hall on the beautiful Island of Cyprus at the end of August, surrounded by their family and close friends .

We all enjoyed their 'Happily Ever Party' on their return to the UK and again we all wish them the very best for a long and 'very happily ever after life' together!

WARNING RE ROADWORKS

Toll bar island's £150 million alterations are still causing major delays on the A45/A46 and are set to cause problems until 2016/17. There are speed restrictions of 40mph and average speed cameras causing long delays most days at most times. So allow a bit of extra time. The good news is the Whitley island, at the end of the A46 is now completed and that is so much better . Excellent improvement.

Oral Hygiene lesson for the under 5's

We were asked if we could help with an oral hygiene and diet lesson at Bambini's Children Nursery in Bedworth this week as part of their 'People Who Help Us' week. Michelle, one of our dental nurses went along and delivered an interactive talk to 20 very keen children! It all went down very well. They had to

identify good foods and bad foods and apparently the following day they were all inspecting their lunch boxes !!

A Job very well done.
